Quiz . 15 Total Points

🎉🏆 WOW! You aced it! Perfect 100%! You're a quiz champion! 🏆🎉

Your marks : 15 / 15

1. What is the main purpose of Amazon EC2?

- ☐ Data storage
- ☐ Managed database service
- ☒ Compute capacity in the cloud
- ☐ Content delivery

✓ Correct!

2. Which AWS service provides a managed message queueing service?

- ☐ Amazon EC2
- ☒ Amazon SQS
- ☐ Amazon S3
- ☐ Amazon RDS

✓ Correct!

3. What is an Event Bridge Schedule used for?

- ☐ Monitoring application health
- ☐ Managing user identities
- ☒ Triggering AWS Lambda functions at defined times
- ☐ Encrypting data in transit

✓ Correct!

4. Event Bridge Pipe is primarily used for what purpose?

- ☐ Data encryption
- ☒ Data transformation and routing between AWS services
- ☐ Data backup
- ☐ Load balancing

✓ Correct!

5. Which EC2 pricing option allows you to pay for compute capacity by the hour with no long-term commitment?

- ☐ Reserved Instances
- ☐ Spot Instances

5. Which EC2 pricing option allows you to pay for compute capacity by the hour with no long-term commitment?

- ☐ Reserved Instances
- ☐ Spot Instances
- ☒ On-Demand Instances
- ☐ Savings Plans

✓ Correct!

6. What is the key feature of Amazon SQS that helps ensure messages are processed at least once?

- ☐ Message Deduplication
- ☒ At-Least-Once Delivery
- ☐ Delay Queues
- ☐ Long Polling

✓ Correct!

7. How often can the schedules for Amazon EventBridge rules be set?

- ☐ Once a day

7. How often can the schedules for Amazon EventBridge rules be set?

- ☐ Once a day
- ☐ Once a week
- ☒ As frequently as every minute
- ☐ Every hour

✓ Correct!

8. What is the benefit of using an Event Bridge Pipe?

- ☐ Automated data encryption
- ☐ Simplified data analysis
- ☒ Easy integration and data flow between AWS services
- ☐ Reduced data storage costs

✓ Correct!

9. Which EC2 feature allows you to launch instances in a virtual network that you define?

- ☐ Elastic IP Addresses
- ☒ Amazon VPC

9. Which EC2 feature allows you to launch instances in a virtual network that you define?

- ☐ Elastic IP Addresses
- ☒ Amazon VPC
- ☐ Amazon EBS
- ☐ Auto Scaling Groups

✓ Correct!

10. Amazon SQS supports how many types of queues?

- ☐ 1
- ☒ 2
- ☐ 3
- ☐ 4

✓ Correct!

11. EventBridge can trigger which of the following AWS services?

- ☐ AWS Lambda only
- ☐ Amazon S3 and AWS Lambda

11. EventBridge can trigger which of the following AWS services?

- ☐ AWS Lambda only
- ☐ Amazon S3 and AWS Lambda
- ☐ Amazon EC2, AWS Lambda, and Amazon S3
- ☒ Multiple AWS services, including AWS Lambda, Amazon S3, and Amazon EC2

✓ Correct!

12. What advantage do Spot Instances provide over On-Demand Instances?

- ☐ Longer commitment periods
- ☐ Higher compute capacity
- ☒ Cost savings
- ☐ Guaranteed availability

✓ Correct!

13. SQS message visibility timeout is used to:

- ☐ Encrypt messages in the queue

13. SQS message visibility timeout is used to:

- ☐ Encrypt messages in the queue
- ☒ Prevent other consumers from receiving the message after a consumer has received it
- ☐ Increase the message retention period
- ☐ Filter messages sent to the queue

✓ Correct!

14. What is a use case for Event Bridge Schedule?

- ☐ Real-time data transformation
- ☐ High-frequency trading analysis
- ☒ Scheduled snapshot backups
- ☐ Data warehousing

✓ Correct!

15. How does Event Bridge Pipe enhance application integration?

- ☐ By providing a managed VPN service
- ☐ By offering a graphical user interface for code development

14. What is a use case for Event Bridge Schedule?

- ☐ Real-time data transformation
- ☐ High-frequency trading analysis
- ☒ Scheduled snapshot backups
- ☐ Data warehousing

✓ Correct!

15. How does Event Bridge Pipe enhance application integration?

- ☐ By providing a managed VPN service
- ☐ By offering a graphical user interface for code development
- ☒ By enabling easy setup of event-driven workflows between AWS services
- ☐ By reducing the cost of data transfer between regions

✓ Correct!
